Work and Think.

Hammer, tongues and anvil ringing,
Waking echoes all day long,
In deep-toned voices are singing
Thrifty labor's iron song.
From a thousand fly-wheels bounding,
From a thousand humming looms,
Night and day the notes are sounding
Through the misty factory rooms;
Listen, workmen, to their play,
There's advice in every clink;
Still they're singing, still they're singing,
"Whilst you labor learn to think!

Think what power lies within you,
For what triumphs you were formed.
If in aid of bone and sinew,
Hearts by emulation warmed,
Mighty thoughts ye woo and cherish,
What shall hold your spirits down?
What shall make your high hopes perish?
Why shall ye mind fortune's frown?
Do you wish for profit, pleasure?
Thirst at learning's fount to drink?
Crave ye honor, fame or treasure?
Ye the gems have—work and think!

Think! but not alone of living,
Like the horse, from day to day;
Think! but not alone of giving
Health for pelf or soul for pay;
Think! Oh, be machines no longer,
Toiling just for daily food;
Think! 'twill make you fresher, stronger—
Think you to the great and good!
Thought exalts and lightens labor;
Thought forbids the soul to sink.
Self-respect and love to neighbor
Mark the men who work and think.

Wilmington News.

From the Enterprise, April 23d.

Four new students arrived here on Saturday from San Luis Obispo county and began their studies at Wilson College on Monday.

The work is progressing rapidly on the wharf. About 160,000 feet of lumber arrived for the woodwork, a few days ago, from Puget Sound.

The Wilmington wool depot is driving ahead at a lively rate, as the growers are patronizing it liberally. Mr. Myers, the grader, informs us that the wool is turning out unusually well.

Norman C. Jones has purchased of W. H. Mason a ten-acre lot adjoining the college grounds, and also the same quantity of land lying back of Col. Wilson—making a handsome little place of twenty acres. Mr. Jones has already commenced improvements. He purposes building a handsome cottage house, and then ornamenting the grounds in the highest style of landscape gardening.

Arizona News.

From the Daily Miner, April 14th.

A little more snow fell here last Saturday, which melted early Sunday forenoon, since which time we have had wind from the south and a cloudy sky.

Having seen lettuce and radishes from Peter Broisard's garden Friday last and snow from the clouds Saturday last, we are led to remark that this is a wonderful country and the Broisard a weather beater.

Writing to us from Camp Verde, under date of April 10th, Frank Murray says: The Indians attacked R. B. Stubblefield on the 9th inst., about six miles below the post, and shot him in the knee. He is now in the hospital at this place. There are a great many Indians roaming around the settlements on the river. Three were seen a few days ago, and I yesterday saw two. Mr. Roberts has lost one of his work cattle, and I suppose the red men have had a fine time feasting on it.

From the Miner of April 16th.

Snowed this morning, and all the fore part of the day.

The hills and valleys in this section are donning their dress of green, and now afford excellent pasture.

Mr. A. Cullumbur, of Walnut Grove, arrived in town yesterday afternoon and informs us that Mr. Hall was ready to start his five-stamp mill when he left the Grove. The mill will crush ore from the Ironclad mine, which is looking exceedingly well. Mr. C. says the mining prospect of that district looks better than ever.

We are informed that Wm. Blake, residing at or near old Camp Hualpai, having been intrusted with a span of animals by C. S. Rogers, sold said animals and decamped with the proceeds; was last heard of making tracks for the California side of the Colorado. This man Blake was a discharged soldier, having served a full term of enlistment in Capt. Mason's Company, in the Fifth Cavalry, and for a long time occupied the position of Quartermaster's Sergeant, in which he enjoyed the reputation of an honest, trustworthy man.

We have it, from a military source, that our report of the shooting and wounding of Robert Stubblefield, at the Verde, as published in Monday's paper, was incorrect. An examination of the premises showed that no Indians had been there, but boot tracks, supposed to have been made by a white man, were found, and it is believed to have been an attempt on the part of some ill-disposed person to murder Mr. S. Land rows, etc., are talked of in that section, but of which deponent knoweth nothing, and we give it, therefore, just as we get it.

A Danish girl about twenty years of age at Watsonville became insane a few days ago and was ordered to Stockton. At Santa Cruz she jumped from a second story window and had not been found at last accounts.

The California and Oregon Stage Company will commence on Summer time the 1st of May next, making the trip in fifty-two hours from railroad to railroad, and twenty-one hours from the railroad terminus to Yreka.

A San Juan letter to the Nevada *Transcript* says: "On the ridge north of here, at Camptonville, Indian and Brandy City, owing to the severity of the Winter, there has been no mining done worthy of mention up to the present time.

Important Land Decision.

LAND OFFICE AT LOS ANGELES, CAL., April 8, 1874.

Hon. Willis Drummond, Com. General Land Office, Washington, D. C.:

Continued from yesterday.

None of the aforesaid requirements have been complied with the alleged location in behalf of Edward Merrill. On the contrary, it was shown that by the production of the original warrant No. 156 now in the hands of one Jaeger, that said warrant had not been so filed or endorsed.

If Merrill's school warrant location was made under the provisions of the Act of the Legislature of May 3, 1852, then it was necessary that the tract should have been surveyed by the County Surveyor and a plot thereof filed with the State Surveyor-General and an entry of the same made with the County Clerk of the county where the land is situated. There is no evidence showing that these provisions of the law were complied with in Merrill's case. Moreover, it is stated by your said letter of instructions of November 16, 1853, that warrant locations could be made at any time after survey according to existing laws, and the Courts of this State have uniformly held that such locations could only be made on surveyed lands.

There is in evidence a certified copy of location of school warrants for Edward Merrill on the tracts in controversy, bearing date June 23, 1857, but this cannot be considered as a certificate of location under the Act of '52, because the only evidence of a survey as required by this Act is exhibit 9, bearing date Sept. 15, 1857. Furthermore, if the location is claimed under the Act of '52, it is not in evidence that a report of duplicate copy of the plot and certificate of survey of said tract was made and reported as required by the 12th Section of said Act.

The location, therefore, must be considered as having been made under the Act of the 30th of April, 1857, which modified the Act of '52 in that school locations could only be made on surveyed land after the plot had been on file in the local land office 30 days.

The location of Merrill having been made subsequent to the passage of said Act of April 30, 1857, should have conformed to its requirements. It is required by said Act of '57 that locations of school warrants should be made by filing with the Register of the local land office an application particularly describing the tract located, accompanied by an affidavit of the applicant and one or more witnesses that there is no valid claim to the tract located adverse to that of the applicant. There is no evidence in the case, nor do the records or files of this office show that such written application was ever filed. It is therefore rendered quite certain that Merrill never complied with the law in this very essential particular.

Exhibit 9, introduced in evidence, is a certified copy of a certified copy of a certified copy of the original field notes and certificate of location of warrants, No. 227 and 156, or, in other words, a document certified by Henry Hancock as County Surveyor of Los Angeles county, to be a true and correct copy of the original field notes of survey; and J. F. Houghton as Surveyor-General of California, by A. S. Bendez, Deputy, to be a correct copy of said certified copy; and by Robert Gardner, as Register of the State Land Office, to be a true copy of said copy, certified as aforesaid.

This document is so remote from the original that we can not with safety regard it as other than very doubtful evidence.

It is provided by the first section of the Act of the Legislature, approved April 16, 1859, that patents shall issue to the holders of school warrants issued under the provisions of the Act of May 3, 1852, and the Act of April 30, 1857, and to the holder of a certificate of purchase under the provisions of the Act of April 23, 1858, upon complying with the provisions of the said Act of April 16, 1859.

It is not shown or attempted to be shown that the State had refused or was not ready to perfect the alleged location in behalf of Merrill, or that he made any effort to procure a title under said location as provided by the aforesaid Act of April 16, 1859.

To be continued to-morrow.

COUNTY OFFICIAL PAPER.

SATURDAY..... APRIL 25, 1874.

PROSPECTS FOR A PAPER MILL.

Several gentlemen of means are collecting information relative to the cost of building and operating the machinery requisite for the manufacture of brown wrapping paper, with a view of erecting such an establishment in this city. From information at hand we are enabled to state that the first cost of all the machinery necessary will not exceed $5,000, and the cost of delivering, together with the building, will not exceed $5,000 more. If our estimate is not too low, it will pay for itself in a few months after commencing operations. Rye straw is said to be the best and cheapest material for manufacturing this quality of paper, and that grows in abundance all over the valley. The home consumption of wrapping paper is already large, and augmenting in proportion with our rapidly increasing population and the large increase in our fruit yield. The fruit dealers use vast quantities of paper in packing fruit, and if it can be furnished them from a home establishment and at cheaper rates, they will patronize the local mill to the exclusion of all others. The gentlemen who are moving in the enterprise are now satisfied that it is one of the best investments in which they can place the amount of money required, and we have no doubt the next few months will see the Los Angeles paper mill in successful operation.

TOBACCO CULTURE.

The Los Angeles Tobacco Association commenced active operations last Sunday, that being the only day on which they could obtain the water necessary for setting out the young plants. The work will continue each day on which the water may be had, until the entire area prepared is planted. Dr. HOWARD and other gentlemen, who have given a great deal of study to tobacco growing, are confident that this valley will grow as fine a quality of tobacco as is produced anywhere in the United States. In another column of to-day's HERALD we print a letter from GEO. W. GIFT, which contains some facts well understood by old tobacco planters, but which may be of use to new beginners, concerning the peculiarity of tobacco in adapting itself to the country in which it is grown. The fact that Cuban seed, if planted at Gilroy or anywhere else, will soon transform itself into the quality of tobacco grown in the locality, is one of which all growers should inform themselves. Dr. HOWARD and associates have tested this part of the business, and find it advantageous to import new seed annually. The HERALD will from time to time give such information on tobacco culture—a business which will ultimately become a leading branch in this valley—as will be most useful to those engaged in it or who are about to engage in it.

THE CITY PRINTING—THE "HERALD'S" BID MISUNDERSTOOD.

A misapprehension arose in the Council, at its meeting on Thursday afternoon as to the intent and purpose of the HERALD'S bid to do the city's advertising and job work for the ensuing year. There can be no doubt but that the apparent ambiguity of the bid was occasioned by the accidental omission of some portion of it in the reading, and in order to show that it was the clearly stated intention of the company to do all the advertising and job work required by the city during the year, for $125, we print the bid in the columns of the HERALD. It will be seen that the last word in the body of the bid implies more than is stated, if required. The HERALD'S bid reads as follows:

LOS ANGELES, April 22, 1874.

To the Honorable Mayor and Common Council of Los Angeles: The HERALD will do the following job work and advertising, as per specifications, for one hundred and twenty-five dollars [$125], to wit:

1,500 tax receipts, bound in three books;
600 warrants, bank note paper, bound;
1,500 Assessor's blanks;
500 Marshal's certificates of tax sales;
4,000 license blanks;
8,000 water permits.
Delinquent tax list, all ordinances, notices, resolutions, &c. [Signed:]

STATE GRANGERS' BANK.

The Convention of Grangers called by the Executive Committee of the State Grange, and composed of two delegates from each subordinate Grange in the State, is now in session in San Francisco. From J. Q. A. STANLEY, one of the delegates from the Los Angeles Grange, the HERALD yesterday received the following telegram, which explains itself:

SAN FRANCISCO, April 24, 1874.

To the Los Angeles Daily Herald:

The Grangers' State Bank has been organized, with a capital stock of five million dollars. Half a million of the stock is already taken.

J. Q. A. STANLEY.

THE Santa Barbara *Index* is laboring to prove that the water in front of that town is as safe as any along the coast. We see no reason why the claim should not be extended and the assertion made that it is as safe as any other portion of the Pacific Ocean.

"WHAT CHRIST would have done with a million dollars" is a new subject suggested for sensational preachers. The question will have to be ruled out of order as non-debatable, on the ground that the SAVIOR did not belong to that class to whom the ALMIGHTY ever gave a million dollars.

THE RIGHT OF THE MAJOR TY.

The Santa Cruz *Sentinel* is desperately, indeed, frantically earnest in its opposition to the Local Option Law. It is a rare thing that our friend SHAW enters so earnestly into a discussion that his zeal clouds his good sense and warps his excellent judgement, but he has suffered to this extent in his fight against a trial of the law in his vicinity. A recent issue of the *Sentinel* quotes from the HERALD the remark that the law is but the submission of a proposition which can only be adopted by the consent of the majority of those it is intended to affect, and calls it "cant," "twaddle," "dogmatism." It then proceeds to argue against the right of the majority to make laws for the government of the whole, as follows:

The spirit of our Republican institutions never contemplated that the law-making power should be exercised directly by the people at the ballot box, as it is proposed to be exercised in voting under the Local Option Act. The will of the majority was intended only to be expressed in electing representatives to make laws or in ratifying any law by such representatives.

This is emphatic, but the next two sentences are even more pronounced:

If we are to make laws by resorting to the ballot box, we shall be the victims of the whims of the majority, and dance to the music of every popular caprice. We submit that a more odious form of tyranny cannot be imposed upon any people than the will of the majority when it is enforced against established ideas of liberty, equality and justice.

We are astonished that, holding these views, the editor of the *Sentinel* should have shouldered a musket in defense of the nation's life. The honorable wounds he bears should smart when he expresses opinions such as here quoted. Will he deny that under our Government the majority speaks for all, or does he deny that they have a right so to speak? Is it not the majority who make our laws, and does not every law assert at the outset that it is enacted by the people—the whole people? Are not constitutional amendments, the issuance of bonds, the donation of subsidy, effected by precisely the same process that the sale of liquor is prohibited under the Local Option Law?—the consent of the majority interested. If the *Sentinel* is opposed to the Democratic principle that the majority shall rule, its arguments are sound, but if it is not so opposed, its position on the Local Option issue is untenable, and should be vacated at once.

OFFICIAL PECULATION ON A SMALL SCALE.

One of two things is as certain as that the sun shines: Either the temptations that beset a public officer now-a-days are greater than formerly, or men are more inclined to dishonesty than in times past. Assuming that the number of official positions are only proportionately greater now than on the evening when the Mayflower ran her prow on the sands of Plymouth Rock, we must concede that the increase in the volume of official corruption is frightfully great. From the high departments of the Nation itself down to the beadle of a village corporation, peculation in office is the general rule in place of the rare exception. San Francisco is a very maelstrom of this discreditable and, to the taxpayers, very expensive fashion; and now comes Sacramento with an exposé of her municipal blots and blemishes. The art of robbing the people was worked down to so fine a point that a Trustee's wife monopolized the business of city gravel hauling, and let out the work to contractors for a commission of one-seventh of the price paid, or, as she arranged it, for every seventh load. Are we not all poor, sinful creatures?

THE "eternal nigger" is giving trouble to the Board of Education of San Francisco and will no doubt continue to make himself heard until he is awarded a front seat in the public schools. Well, as nothing can be done in this free and enlightened Republic, except through the will of the majority, we expect when the intelligent contraband has established the fact that he claims only what the law doth give, the dissenting minority will have to accept the alternative of school equality or a peacable vacation of the public school-house. The negro is determined not to be satisfied with separate schools for those of his color, and so long as he is able to find those who interpret the law in his favor he is just ignorant enough and foolish enough to endanger his guaranteed rights by struggling for those to which his title is not so clear.

THE San Diego *Union* says the agent of the Pacific Mail Steamship Company has announced that the Panama steamers of the company will not stop at San Diego for some time to come, and that all persons at that place desiring to go East or down the coast must make San Francisco their starting point. If a man at San Diego wishes to reach Panama he must go up to San Francisco to get started. He travels one thousand miles before he starts on his journey. The company will damage themselves by this arrangement. Down the coast travelers must seek steamers going that way, but certainly no one in southern California will go East by way of Panama. Once the have reached San Francisco they will continue their journey by railroad.

A COTEMPORARY regrets that the old chivalry of California is passing away. There is no use in regretting a thing that cannot be recalled, so we will express the hope that the new chivalry may soon go the way of that it has succeeded.

Signs of More Trouble in Arkansas.

EASTERN.

The Conditions of Scott's Railroad Bill

WASHINGTON, April 23.—Scott's bill supplementary to the Act incorporating the Texas Pacific Railroad Company ratifies and confirms the consolidation heretofore made between the Southern Pacific Railroad Company and the Southern Transcontinental, as authorized and requested by the laws of the State of Texas, and provides also, that these roads, so consolidated, and east of Fort Worth, shall be deemed part of the Texas and Pacific Railroad, and shall hereafter be subject to the limitations and provisions of the Act of Congress approved March 3d, 1871, incorporating the Texas and Pacific Railroad Company.

Order to Withdraw Troops from Little Rock.

WASHINGTON, April 23.—The Secretary of War has telegraphed to the commandant at Little Rock to withdraw his forces to the arsenal as soon as the danger of bloodshed is over, and leave matters to be settled by the contestants or courts.

The Trouble Not Over in Arkansas.

LITTLE ROCK, April 28.—Brooks this morning refused to recognize the Secretary of State, Johnson, and ordered him to vacate and surrender his office on the ground of his (Johnson's) signing Baxter's proclamation last night convening the Legislature. Johnson addressed Brooks two letters, stating his position and the necessity of his possession of the office. Brooks answered neither of them. Brooks denies Baxter's authority to convene the Legislature. The people are generally satisfied with this means of settling the difficulty. Brooks this morning announced to the troops his determination of holding the State House, regardless of the consequences.

Expected Decrees of the Captain General of Cuba.

NEW YORK, April 24.—A Havana letter says that it is rumored that several decrees will soon be issued by the Captain General. One of them will fix the price of gold at fifty per cent premium, and any one suspected of having taken part in any transaction above this figure, will be tried by court-martial. A forced loan of twenty millions is also talked of, as well as the payment of duties in gold.

Ben Butler on the Inflation Veto.

BOSTON, April 24.—Ben Butler was interviewed to-day on the veto. He said he had not read it, but could not see how Grant could get around his own act, in issuing twenty-six millions reserve. In fact, he did not understand it, unless Grant had gone back on himself. He added, "Well, if the President will deny his own acts, let him do it.

Bridge Over the Willamette at Salem, Oregon.

WASHINGTON, April 24.—The Senate has passed the bill authorizing the construction of a bridge over the Willamette river at Salem, Oregon.

Captain Charles H. Baldwin is detached from the command of the naval rendezvous at San Francisco on June 13th next, and placed on waiting orders.

A Ship Ashore Near Ocean View—Fruitless Efforts to Get Her Off—Sailing of a Mutinous Crew—Leading Merchants Congratulate the President on His Inflation Veto—Postponement of the Panama Steamer's Sailing Day.

SAN FRANCISCO, April 24.—The ship James Chester, which sailed for Nanaimo last night, drifted ashore near the Ocean View. Two tugs are at work with a prospect of getting the ship off.

Capt. Burgess, with the ship David Crockett and his mutinous crew, put to sea to-day, bound for Liverpool.

The prominent merchants and business men of this city have sent messages to President Grant congratulating him and the country on the veto of the finance bill.

The Constitution will not sail for Panama till next Tuesday. She was twenty-three days coming from Panama.

At last accounts the tugs had not succeeded in hauling the ship James Chester off Ocean View beach, where she drifted to-day. She lay easily and may yet be got safely away. She had no cargo on board. Her Captain lost the ship Panther a few days ago on the northern coast.

"Why do you use paint?" asked a violinist of his daughter. "For the same reason that you use resin, papa." "How's that?" "Why, to help me draw my beau.

Speaking of the recent elections in England, the *Court Journal* says: "A very good hit was made, a day or two after an election, by one of the defeated candidates. A gentleman approached him with: "Well, Mr. ——, how do you feel?" "Well," said he, "I feel, I suppose, pretty much as Lazarus did." "As Lazarus did!" said the first speaker. "How is that?" "Why," said he, "Lazarus was licked by dogs, and so was I."

LAND FOR SALE.
LOCATED ABOUT TWO MILES south of the Los Nietos Depot.
A splendid 80-ACRE LOT is offered for sale on the most liberal terms. The location is very desirable, and the land is in good condition.
Last year it produced a crop of 115 bushels of corn to the acre. Any one who may desire to purchase land in this locality would do well to inspect this lot and examine this year's crop, which has not been gathered. The sole reason for sacrificing this property is to meet certain obligations immediately. TERMS—one-half cash, and the balance in one or two years. .....ALSO.....
An 80-ACRE TRACT, located on the line of the railroad going east to Mud Springs, and embraced in the San Jose Rancho. This is a most desirable piece of land, is in a first-rate condition; under fence, and good water-right; on which are growing 10,000 grapevines in a full bearing condition; has a large commodious DWELLING-HOUSE; all to be sold on easy terms. In another column will be found the time-table of the Southern Pacific Railroad with latest changes.

Frank Ganahl leaves to-day for Bakersfield to conduct the defense in a trial on a charge of murder.

The Orizaba left yesterday for San Diego, and will return to-morrow on her upward bound trip.

A screw for a small propeller on Owen's Lake, near Cerro Gordo, was taken from the depot yesterday by team for that place.

The HERALD office is under obligations to Mr. Pridham, agent of Wells, Fargo & Co. in this city, for a file of late San Francisco papers.

The editor of the HERALD returns thanks to Mrs. George J. Clark for the beautiful boquet that now graces his sanctum table.

Dr. Hobbs will (D. V.) preach at the Court-house Lord's Day next at 11 and 7 o'clock. Subject: The Great Object of Attraction in Heaven and on Earth—Spiritual Agriculture.

A lady in straightened circumstances with two boys to support, desires work for herself and sons. She can be found at the United States Hotel by enquiring for Mrs. P. Hager.

Business is rushing now-a-days at the depot. Every day brings an increase in the quantity of freight to be handled, and it has been found necessary to increase the force of clerks accordingly.

Officer Ramon Benetis returned yesterday from the chase after Vasquez. He reports that his party has gone into the Malaga country, but when he left had not yet discovered the whereabouts of the fugitive robber.

A. F. McDonald of this city has just returned from San Francisco with a large and elegant assortment of boots and shoes of the latest New York styles. Parties wishing to purchase will find it to their advantage to give him a call.

Nearly the entire edition—one thousand copies—of the HERALD pamphlet has been disposed of. Everybody likes the pamphlet, and everybody sends it away to his absent friends. Don't fail to call and secure a number of copies before it is too late.

J. D. Patrick has the agency for Dunham's and Emerson's pianos and Mason & Hamlin's organs. He has sold many of the instruments to citizens of Los Angeles and they have all given entire satisfaction. Mr. Patrick also keeps all kinds of sheet music.

Gloria in excelsis. The Council is taking active steps to have the Plaza renovated and adorned by walks and shade trees. Thus some of the bread which was cast upon the waters by the HERALD is returning after many days.

We would recommend to tourists and visitors generally Mr. B. W. Diffenderffer as a guide and special driver. He is well acquainted with the country surrounding Los Angeles, and has the character of being a careful and experienced driver. Orders may be left for him at Beach & Butler's stables.

Messrs. Edwards & Hoff are opening at the Capital store, two doors from the HERALD office, a fine stock of dry goods, clothing and furnishing goods. Next Tuesday their store will be in full operation, and the public is invited to call and examine the stock and prices.

We learn that Mr. Kimball will soon commence the erection of a fine residence on New High street, next the Congregational Church. The building will be frame, 36x50 feet, two stories, with wing, porches, and all the modern improvements, and will cost about five thousand dollars. Mr. Keyser is the architect in charge.

The Sheriff's office glories in the posession of a bran new desk of magnificent proportions, which looks something like a saloon counter. It wouldn't surprise us much to see the Sheriff and his affable deputies "smiling" over the new bar—when Vasquez is caught.

The necessary tools for building the Spring Street Railroad have arrived, and on Monday the work of preparing the road bed will be commenced. A portion of the construction material is here and more on the way. The enterprise will be pushed forward as rapidly as possible until the track is ready for the cars.

The Coming May-Fest.

The time is rapidly approaching for the grand celebration of the Turn Verein Society. On Sunday, May 3d, this annual pic-nic holiday of our German friends will take place. The Society will form in procession at their hall about 9 A. M., and, after parading through the streets, will proceed to the place of merry-making in the Arroyo Seco, about three miles from the city. Here the most ample preparations are making for a grand good time and the best accommodation for all who wish to participate. The grounds are finely shaded, surrounded by a fence to keep out all unsuitable visitors, and a large pavilion has been erected, where those so inclined can "come and trip it as they go, on the light fantastic toe." In the afternoon the time will be devoted to games of all kinds, gymnastics, foot-ball, target shooting, bowling, dancing and all the enjoyments of a regular jolly good time. Isert's Band will furnish music for the occasion. During the whole day carriages will run constantly between the city and pic-nic grounds for the accommodation of visitors. The Germans know how to thoroughly enjoy a day when they set out for it, and they never do things of this kind by halves.

Gold has fallen from 1.13¾ to 1.12¼—rather a speedy result of the President's inflation veto.

All present and former members of the Ancient Order of Hibernians are invited to meet at the old Overland Corral—Pat McGuire's—to-morrow at 3 P. M., for the sake of friendship and unity.

A man with a shining new tin bucket in his hand attempted to mount his horse on Main street yesterday. Shortly after he picked himself off the ground most thoroughly disgusted with horses and tin buckets and everything else.

The Marxsen Bros. have opened a fine stock of goods in their general store, corner of Main and Third streets. You will find there everything in the dry-goods and grocery line; besides the stock is new and the store attractive. Step in and see the Messrs. Marxsen.

On Monday occurs the celebration of the Odd Fellows in commemoration of the fifty-fifth year of the founding of the Order in the United States. They will meet at their Hall at 12:30 P. M., there forming in procession and taking up their line of march to Turn Verein Hall. At the latter place Rev. Wm. B. Hill, Past Grand Master of the State of California, will address the assemblage. In the evening a grand ball will be given at Turn Verein Hall. A most enjoyable time is anticipated.

Mr. John Cashon brought to the HERALD office yesterday a tarantula's nest and the inhabitant thereof. He was a young fellow, not more than half grown, and not much larger than an ordinary pumpkin, but he had the most complete house to be seen anywhere. It was lined throughout with a silky waterproof substance, but the fitting of the door, and its hinging to the main building was a finished piece of work which many house carpenters might study to advantage.

G. W. Parker, watchmaker and jeweler, has located at No. 66 Main street, where he keeps a finely selected stock of watches, clocks and jewelry, and also attends to repairing in his line. Mr. Parker comes from Olympia, Washington Territory, whence he brings the best of recommendations, and among the rest a diploma from the Western Washington Industrial Association, for the best display of jewelry at their exhibition held in October last at Olympia. Call on Mr. Parker if you need anything in his line; you will find him thoroughly posted in his business, and besides a genial gentleman.

The Wilmington *Enterprise* pays the following merited compliment to the Clarendon Hotel of this city, J. A. Brown, proprietor: "The travel to Southern California, as all know, has been very great, and is still increasing. And all know, furthermore, that good hotel accommodations are very essential features in a pleasant traveling experience. A failure in this respect, even in the most delightful locality, leaves an unpleasant remembrance. One frequently hears a traveler say, such and such a place is charming, but the hotels are execrable. Those visiting Los Angeles will find no opportunity for such remarks if they stop at the Clarendon. This hotel is pleasant in all its appointments, and is one of the best, if not the best, public houses to be found in Southern California."

To the Afflicted.

Grateful not only for entire relief from terrible suffering of seven years standing but for a perfect cure of internal piles by an operation scarcely more painful than my daily sufferings before the operation, I feel it a duty I owe to those similarly afflicted to give this testimonial of the skillful and efficient treatment of Dr. J. H. Leal of Los Angeles. Dr. Leal's success is more highly appreciated from the fact that several of the prominent physians of Los Angeles had treated me without understanding my disease and of course without success. COUNTY OFFICIAL PAPER

SATURDAY..... APRIL 25, 1874.

LETTER FROM MEMPHIS.

Suggestions About Tobacco Growing—New Town, Simms' Town and General Banning's New Wagon.

EDITOR HERALD: I have a brother-in-law living in Decatur county, Georgia, which is within the charmed circle dedicated formerly to the production of Florida tobacco. He annually planted a hundred acres or more before the war, and has planted several times since; but the business does not pay, and does not pay for the reason that Florida tobacco went out of fashion during the war, and has not since gained favor with the public. This you will say is strange when I tell you that the tobacco is the same as it always was. I have often discussed this question of tobacco growing with Col. Munnerlyn and his neighbors, and I think I can give your readers some excellent practical hints about the growing of the weed, and which may save them some money.

IT IS A LAW

Of the tobacco plant, or one which governs it, put it whichever way you like, that it rapidly changes its nature and quality in obedience to changes of soil and climate. That is to say: the Havana tobacco planted in Florida rapidly deteriorates and becomes Florida tobacco; the Florida tobacco planted elsewhere rapidly assumes the type which the new habitant will produce; and reverse the rule and I have no doubt but that tobacco springing from seed taken from Kentucky or Missouri to Havana will rapidly improve from year to year until it reaches the best type, or rather the peculiar type, of that locale. This is a law, about which there can be no dispute. Therefore, if your tobacco growers desire tobacco nearly approaching the Cuba kind they must get the seed from that country every year, which is not difficult, as the New York seedsmen import them. Tobacco seed clings to life for ten years, hence if you have any over they will answer for years to come. I will not venture to attack Mr. Culp's process of improving the quality of the article by curing by chemical or other means, as I know nothing about it; but I will hazard the guess that the tobacco which will grow from the seed sent to Los Angeles recently by Bishop Keener will equal any that has ever been treated chemically or otherwise. Do not wait for the good Bishop to send more seed if you want good tobacco, but send to Peter Henderson, New York, and he will sell them to you. Do not plant seed from tobacco grown in California, but plant imported seed every year.

THERE IS THE SECRET.

They tell me that New Town has grown into Wilmington, and Wilmington has grown to be a *place*. Wonders never will cease. Timms and I never thought much of New Town, but I am afraid we were fogies. The *new* people of Los Angeles must know that the writer held the office of agent for Goller & Tomlinson at Timms Town for six months, during which—being young—he imbibed a violent prejudice against New Town. The greatest victory we ever achieved over Banning was not beating his express up to town, which we essayed to do once, but was witnessing the failure of his steam wagon. An Englishman built a road steamer and shipped it to California, and Banning bought it on condition that it would operate successfully, which he was confident it would do. A day was set for the trial. Banning passed around anxiously; Tom Workman chewed tobacco furiously; McDonald would bet it would work, and Sanford said nothing. The native Californians sat on their horses and cracked jokes, whilst Capt. Jordan (the last I heard of the Captain he was in Montgomery, Alabama,) mounted the engine in a bran new shirt, seized the steering aparatus and said, "go ahead!" Half a dozen of those big wagons were attached behind, and much to our delight (this dont mean Timms and myself) the train moved off and got along first-rate on the flat, firm ground near the slough, but directly it came to the sand and then it stopped. The driving-wheels dug themselves holes, and the more steam the engineer put on the faster she excavated. The boiler foamed and vomited wet soot, which spoiled Captain Jordan's new shirt, and set him to blaspheming. Banning went mournfully to the office and said, "put her back in the lighter and ship her back." Timms and I were happy. But I have repented since then and think Banning was rather more enterprising than we.

Origin of Double Geraniums.

Jean Sisley, a correspondent of the *Garden*, gives the history of the origin of the double pelargoniums, which was furnished him by M. Henri Lecoq, of Clermont-Ferrond, France. The first double geranium is growing in M. Lecoq's garden, being, as far as known, an accidental seedling. Seeds from it, however, were sown by a horticultuist of that place, and several more young double plants were produced, one of which was sold to M. Van Houtte, of Ghent. In 1859. M. Emile Chate, of Paris, went to Clermont-Ferrond, and liking the young double pelargoniums purchased two. In June, 1864, he sent some flowers of one to M. Victor Lemoine, at Nancy, who immediately used the pollen of these flowers to fertilize Beaute de Suresnes, a pink zonale. From this cross was obtained Gloire de Nancy. In 1867, by the same process, he obtained Madame Lemoine, the first double cherry pink zonale, and Wilhelm Pfitzer, double scarlet; Marie Lemoine, one of the best double bloomers; Les Vesuve, double red, and Victor Lemoine. Many others sold in England under different names, were raised from seed of Victor Lemoine. In 1872, Mr. Sisley obtained the first white double, Aline Sisley, by cross-breeding a white single with a double red seedling. Several choice double geraniums have been grown at Ghent and different places in France, but the origin of our best double flowers is given above by Mr. Sisley.

Letter from Anaheim.

The efforts of the "Herald" Appreciated—Splendid Crop Prospects—Fruit and Vine Culture—Proposed New Wharf—May-Day Pic-Nic.

EDITOR HERALD:—Fully appreciating your efforts to make the HERALD a paper which shall truly represent the interests of all parts of the county, I have undertaken in a small way to aid you in your laudable enterprise, by dropping you an occasional letter from this part of the county. I believe with you that a truthful representation of the interests and advantages of each section is the best way to advance the growth of all. I despise in a newspaper, as a man, that narrow-minded sectionalism which would pull down, had it the power, every place but its own; that can see no good beyond the little circle of its own vision; and is so gangrened by prejudice and selfishness that it can feel no thrall of pleasure over the prosperity of its neighbors.

NEVER BEFORE

Has there been such promise of abundant crops in this section as now. The acreage sown is greatly in excess of former years, and the yield per acre, judging from present appearances, will be at least one-third greater. From statistics collected at the last meeting of Anaheim Grange, the estimated yield of the growing crops of thirty-two members was placed at 170,000 bushels. Some of the largest grain-growers in the vicinity of Anaheim are not members of the Grange, and of course no report of their crops has been made. It is estimated that there will be harvested in the valley of Santa Ana this year, a million of bushels of the three cereals—rye, corn and barley. On account of the nearness to the ocean, wheat is liable to rust and but little is sown.

FRUIT AND VINE CULTURE

Are largely engaging the attention of our farmers, particularly the culture of the orange. Nearly every farmer in the neighborhood, this Spring, has invested to the extent of his spare cash in orange trees. As a result, around almost every farm house is to be found the nucleus of an orange orchard. Dr. Hardin, on his lot west of Anaheim, has set out fifteen acres in orange trees. The Doctor has been very successful in transferring his trees from the nursery to the orchard. In transplanting over a thousand three-year-old trees, he did not lose a single tree. The trees were lifted from the nursery by a machine called a tree-lifter, the invention of one of our townsmen. It raises the tree neatly and quickly, without displacing the dirt from the roots. On an adjoining lot to Dr. Hardin's, R. Heiman has a young orange orchard of ten acres. Quite a number of small orchards, varying from fifty to five hundred trees, have been planted this Spring. Anaheim will, no doubt, in course of time become as famous for orange orchards as she is now for her vineyards.

A MEETING OF THE CITIZENS

And farmers was held in Justice Bailey's Court-room Wednesday evening, April 22d, to take under consideration the building of a wharf at the Bolsa Chicito Landing. Mr. Olden stated that by constructing a wharf seventeen hundred feet in length, a depth of seventeen feet of water at low tide could be reached. The wharf can be constructed for about $25,000. The project was discussed by several gentlemen, and the unanimous opinion of all assembled seemed to be to make an attempt to carry it out. Wm. R. Olden, John Fischer, Edward Evy and Geo. C. Knox were appointed a committee to prepare a plan for the organization of a joint stock company. Another meeting is called for Monday evening, at which the committee is to report, and the scheme will be fully discussed. The Bolsa Chicito Landing is about a mile and a half south of Anaheim Landing, and about thirteen miles distant from Anaheim.

THE PROJECT,

If carried out, will add greatly to the prosperity of the southern portion of the county. Under the present system of lighterage it costs nearly as much to take an article to or from the shore to anchorage as it does from San Francisco to the anchorage.

The four Granges in this end of the county have united in a May-day celebration. Grounds for the picnic have been selected near Tustin city. A good time is anticipated by all interested. Yours truly,

J. M. GUINN.

Pacific Coast Items.

The barrel factory at Vallejo shut down on Saturday night for repairs, which will occupy about a week.

A young Grangeress of Linn county, Oregon, has ploughed and harrowed in seventy acres of wheat this Spring.

Three hotels are running in Soquel, besides several boarding houses, and all are doing a successful business.

The grain crop of Stanislaus county for this year is estimated at 75,000 bushels. This is the banner county for cereals.

A new town called Sumner has been surveyed on Catching Slough, Coos county. The population will chiefly consist of stumps.

The farmers of Baker county complain that the ducks and geese are destroying their grain, and call upon the sportsmen for aid.

Many of the farmers in Baker county have commenced inclosing and breaking new land, and are preparing to sow a larger amount of grain than usual.

There is a great scarcity of beef cattle in the upper part of California at the present time. There are none in the foothills. The few bag-of-bones, called cattle, which the late Winter left alive, have not juice enough in them to tempt a hungry cayote.

Within the past four months, nearly twenty different business changes have occurred in Santa Cruz. New firms have been started, old firms have dissolved and formed new copartnerships and many merchants have removed to better and more commodious stores.

Sacramento clerks are moving for an early closing of stores, which is opposed by the merchants. The ladies are interceding for the clerks, probably because they are lonely of evenings.

A well-dressed matronly-looking lady walked into a saloon in Carson, the other day, laid her muff on the counter, and took a pair of spectacles, when the barkeeper promptly informed her that no Bible-reading would be in order there. Reaching down into her dress pocket the woman produced a flat bottle and coolly asked for a pint of whisky. She doesn't know yet what that barkeeper was alarmed about.
